Brainy is a boutique training company developing your greatest asset - your thinking skills. Training is available globally.

Brainy Mind Mapping courses skill you with a graphical tool to capture, organise and remember information more easily.

Overview

The programmes are designed to introduce people to a tool that capitalises on the way the brain naturally works when generating and organising information.

Outcomes

- ★ Understand the essential functioning of the brain
- ★ Understand the laws of Mind Mapping
- ★ Skill in creating Mind Maps
- ★ Identify personal & business applications for Mind Mapping
- ★ Increased confidence in using this visual technique for generating ideas, organising & remembering information

Who should attend?

Anybody who would like to be able to capture and organise their thoughts more easily. We believe it can be useful to everybody but particularly roles involving project planning, presenting, note-taking and thinking!

Training Delivery

The delivery of our training is energetic, hands-on and pragmatic. Delegates have any opportunity to understand the concept and then to practise using different activities. The technique can be applied immediately in the workplace.

Duration

We offer 1/2 day & 1 day masterclasses.

Potential Contents

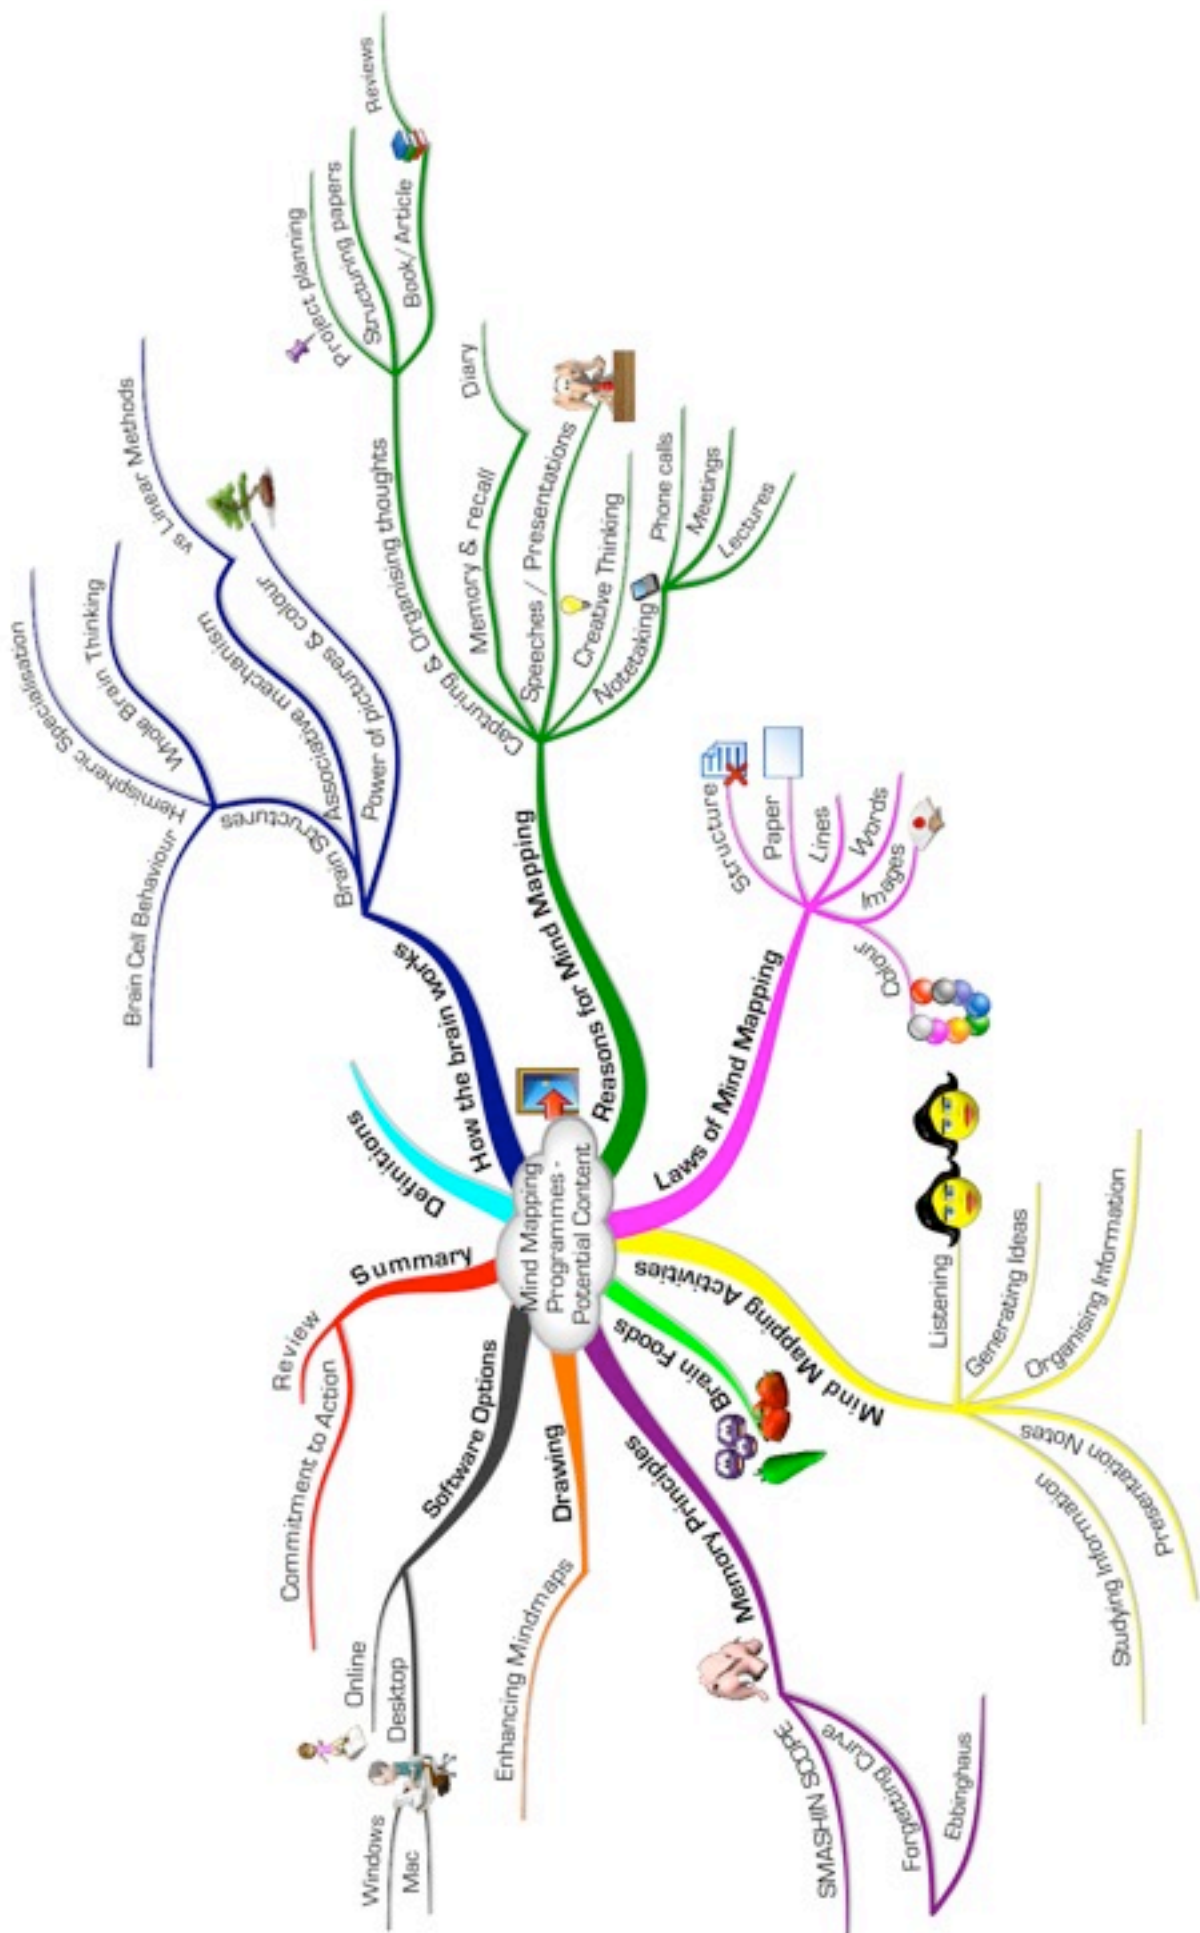

In designing a Mind Mapping programme for your organisation we would select from the following topics, depending upon the desired outcomes and duration of training:

- ★ How the brain works
- ★ Reasons for Mind Mapping
- ★ Laws of Mind Mapping
- ★ Opportunities to practise Mind Mapping: Personal & business challenges
- ★ Memory principles
- ★ Drawing to enhance Mind Maps
- ★ Brain Foods
- ★ Demonstration & use of Mind Mapping software

5 Great Reasons to select Brainy

1. We offer a **100% Risk-Free Guarantee** - if you are not absolutely delighted by our service and the training does not meet your needs then you do not pay - it is as simple as that.
2. Training uses cutting edge neuroscientific knowledge & best practice in training [better results]
3. Energetic, fun, pragmatic training
4. Referral to other relevant training providers [saving you time]
5. Highly skilled facilitators
